

Samsung SCC^{PRO}

enterprise contact center

Contact Center Pro includes:

SCC CALL ROUTING

Conditional Call Routing via ACD Engine, Skill based routing, unlimited queues.

SCC REPORTS

Real Time and Historical Reporting of all ACD Activity in addition to customer data – allows for resource levels to be planned accurately, improving efficiency and customer service as well as providing deeper levels of performance analytics.

SCC IVR

Built-in interactive Voice Response System to enable users to leave messages, route calls to the right agent or offer self-service option.

SCC CALL RECORDING

Inbuilt Call Recording of all Agent Calls with PCI Options, Recording calls can be used for training purposes to improve customer calling experiences while also complying with current Legislation.

Samsung Contact Center Pro (SCC Pro) is specially designed for enterprises with more demanding requirements typically found in classic inbound and outbound contact centers.

From IVR, overflows and skills-based routing to workload balancing and virtual queuing, Samsung provides a full suite of powerful tools delivering a professional, streamlined contact center experience.

SCC Pro offers virtually unlimited call routing options, including skills-based routing, where calls are automatically sent to the agent best qualified to resolve the problem. It comes with call recording and enables administrators to log into the system remotely from a smartphone or tablet.

Samsung SCC Pro Key Benefits

- **Ease of Use:** Browser-based architecture offers convenient access to the system from any device reducing the cost of software licenses, installation and maintenance.
- **Enhanced Efficiency:** SCC Pro provides business intelligence you need to make crucial forward thinking staffing and process decisions.
- **Improved Productivity and Service Levels:** Samsung SCC Pro provides the ability to automatically route calls to the best agent for the job, providing a personalized customer experience, and reduces the need to call backs.

Samsung Contact Center Pro

KEY BENEFITS

AGENT MOBILITY

Agents are not restricted to a deskphone anymore and can work from home, resulting in a more flexible workforce. Instead, they can use a PC remotely connected, with their associated telephone, tablet or smartphone. Samsung SCC Pro can deliver information to any device, anywhere as long as it has a browser.

CUSTOMIZED DISPLAYS

Samsung SCC Pro provides a visual display of key indicators, giving supervisors the information they need to run the department effectively and agents an incentive to improve their performance.

TIME AND RESOURCE SAVINGS

The built-in Interactive Voice Response system enables calls to be processed more efficiently inside and outside office hours. It can be used during busy periods to enable callers to leave messages, self-service or route calls to the appropriate agent.office, enabling agents to work remotely using their mobile devices.
